

## A Calf Never Forgets its Early Nutrition

### Grennans Super Calf Mineral & Vitamin Package

This is a unique blend of Vitamins, Minerals and Yeast essential to the health, vigour & vitality of calves. Calves & weanlings fed on Nugget feeds are noted for their coat shine & vitality. This is no accident. We have researched and perfected our own unique blend of essential vitamins and minerals over many years.

Protected minerals such as **Bioplex Copper** and **Zinc** and **Sel-plex (Selenium)** are included in this mineral pack to ensure optimum thrive in young-stock. These minerals are also important in the lead up to breeding.

High levels of **Vitamins A, D3, E, B2, B6, & B12** are standard in all Nugget Calf feeds. These vitamins are essential for a strong immune system, absorption of minerals, energy metabolism and general calf health. **Biotin** is included for optimum hoof health.

High levels of **Calcium** and **Phosphorus** are included to encourage bone growth and development of the frame.

**Yeassac** – Live Yeast has been proven to make a real contribution to calf health and daily thrive, particularly in high starch diets. It boosts the performance of calves through enhanced digestion and feed efficiency. Alltech Ireland are the world leaders in yeast technologies so we are using their product Yeassac. It is included in all Nugget calf feeds.

Full formulation and feeding guidelines for all Nugget Feedstuffs available on request

### Feeding Recommendations

For optimum thrive aim to get concentrate intakes in calves up to 1.5 to 2 kgs/head/day as soon as possible. This can best be achieved by;

1. Offering small quantities of high quality starter feed each day to maintain freshness.
2. Restrict access to hay. Allow free access to fresh straw.
3. Ensure calves have access to clean water at all times.

*Always the best*

We believe in building long term business relationships with our customers.

We believe that trust has to be the cornerstone of this relationship.

When you choose a feedstuff manufactured under the Nugget brand, you trust us with the wellbeing and profitability of your livestock.

We value that trust greatly, because we know that it is hard earned, but easily lost. Therefore, we are totally committed to producing feeds that not only meet your expectations, but surpass them where possible.

Our guarantee to you is that we will not take shortcuts and we will never compromise on quality.

**QUALITY • RELIABILITY • VALUE**

## Calf Feeds

Rath, Birr, Co. Offaly

t: 057 91 33002 e: sales@grennagri.com w: www.grennans.ie

## Cooked Calf Crunch No.1

- An ideal starter ration for young calves from 7 days up to 2 months old.
- Fully balanced, complete feedstuff that is specifically designed to encourage high intakes & promote early rumen development in young calves.
- Easily digested, very palatable, highly nutritious feed for calves.
- Contains \*Grennans Super Calf Mineral & Vitamin Package.

### Typical Nutritional Analysis;

Cr. Protein 18%	Oil 4.2%
Cr. Fibre 8.0%	Ash 5.8%

## Cooked Calf Crunch No.2

- Ideally used as a follow on from Cooked Calf Crunch No.1 but an excellent calf starter in its own right.
- Designed for calves from 7 days old, up to and beyond weaning.
- Our Market Leader in calf feeds.
- Highly nutritious, very palatable complete feedstuff that has shown unrivalled intakes and daily liveweight gain.
- Contains \*Grennans Super Calf Mineral & Vitamin Package.
- Also available with \*Lungbooster.

### Typical Nutritional Analysis;

Cr. Protein 18%	Oil 3.75%
Cr. Fibre 9.5%	Ash 5.8%

**\*Lungbooster** is a unique natural ingredient that gives added protection against respiratory challenges such as pneumonia.

It removes harmful pathogens from the calf's respiratory system by increasing the flow of mucous from the airways, making breathing easier.

Its natural antibacterial effect also stimulates the animal's immune system to respond to infection faster.

## Cooked Calf Crunch No.3

- Ideally used as follow on from Cooked Calf Crunch No.2, this ration is formulated for strong calves and weanlings.
- Rolled Maize, Barley, Soya & Beans constitute over 50% of this ration.
- Ensures excellent growth rates and confirmation in calves & weanlings.
- Can be fed ad-lib under careful management.
- Contains \*Grennans Super Calf Mineral & Vitamin Package.

### Typical Nutritional Analysis;

Cr. Protein 16%	Oil 2.5%
Cr. Fibre 9.0%	Ash 6.4%

## Super Weanling Crunch

- Designed for strong calves and weanlings from 5 months up to approximately 12 months old.
- High cereal based ration providing energy to support growth in weanlings.
- Consists of over 50% Barley, Maize and Beans, properly balanced with very good protein and digestible fibre sources.
- Can be fed ad-lib under careful management.
- Contains \*Contains top spec beef mineral & vitamin package with yeast.
- Also available with \*Lungbooster.

### Typical Nutritional Analysis;

Cr. Protein 16%	Oil 1.9%
Cr. Fibre 10.2%	Ash 5.8%

### What they say....

"I switched over to Nugget Calf Feeds a few years ago, basically because I had heard other farmers praising it. I am milking cows and rearing about a hundred calves every year. I find Nugget feeds very dependable, my calves take to it quickly and they thrive very well on it. They always end up reared with a great healthy sheen. It would take a lot to convince us to move away from it.  
Ollie Neville, Ballydaly, Tullamore. Dairy Farmer.

## Super Grow Calf Nut

- A high energy highly digestible calf nut designed to maximise liveweight gain.
- Can be used as a starter right up to 6 months.
- Highly palatable nut that ensures excellent intakes .
- Formulated to 17% protein using high quality protein sources such as Soya Bean and Golden Distillers essential for muscle and bone growth.
- Contains \*Grennans Super Calf Mineral & Vitamin Package.

### Typical Nutritional Analysis;

Cr. Protein 17%	Oil 3.0%
Cr. Fibre 9.1%	Ash 7.0%

## Heifer Developer Nut

- 19% Crude Protein - High Growth Nut.
- Particularly aimed at replacement dairy heifers on grass silage during their first winter.
- Low starch formulation ideal for achieving high growth rates in dairy heifers without laying down excessive fat in the developing udder.
- Specifically designed to promote good frame size to help have heifers at their target weight for breeding.
- Contains \*Grennans Super Calf Mineral & Vitamin Package.

### Typical Nutritional Analysis;

Cr. Protein 19%	Oil 3.5%
Cr. Fibre 10.3%	Ash 7.3%
